

# Tarbiya Annual Meeting 2009 Evaluation Summary

## **Introduction**

By the grace of Allah, the Almighty, all four TAM's have concluded. This document is a compilation of the evaluation survey results for each of the TAM's except one (Midwest). Due to the fact that the Midwest TAM in Detroit, MI just concluded, we have not fully gathered all the survey results before the publication of this document. This document contains the results for each Program Session and Clinics as well as the general questions about the overall TAM experience in chart form.

The number of attendees that completed the evaluation survey for each region is as follows:

1. East - 44
2. South - 28
3. West - 34
4. Midwest - in progress

The TAM Program Committee has placed great importance in the results of these evaluation surveys. The results were used to make changes/improvements between each of the TAM's. It will also be used for future TAM's or other similar programs.

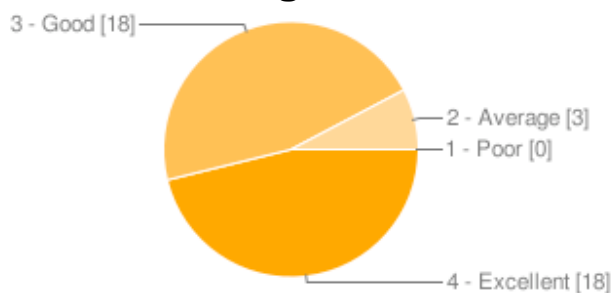

The results show that although the TAMs were not perfect, overall by the will of the Most Merciful they were a great success. The Program Committee acknowledges their shortcomings and mistakes during the planning and has learned a lot and hopes to make this information public for others to also learn from. God willing, TAM 2009 has served as a significant event for all MAS members and will contribute to the advancement of MAS' mission and vision.

If you would like more detailed information about the results of these surveys, please feel free to contact the TAM Program committee at [MAS TAM Program Committee@yahoo.com](mailto:MAS TAM Program Committee@yahoo.com).
